ENGINE OIL

AEC Germany Extra Fortune Engine Oil is a premium quality lubricant engineered to deliver outstanding engine protection and ensure peak performance in all driving conditions. Its advanced formula reduces friction, fights deposits, enhances engine life, and improves efficiency. Suitable for both modern petrol and diesel engines.

SUPERIOR ENGINE PROTECTION

Reduces wear and tear, protects against rust and corrosion.

EXCEPTIONAL PERFORMANCE

Ensures smooth acceleration, better mileage and reliable performance.

THERMAL STABILITY

Performs consistently in extreme temperatures and tough driving conditions.

CLEANER ENGINE

Keeps the engine clean by preventing sludge and deposit build-up.

LONGER ENGINE LIFE

Extends engine life and reduces maintenance costs.

AUTOMOTIVE LUBRICANTS

01 SAE 0W80

API SP

Premium synthetic oil specially developed for modern fuel-efficient petrol engines. Provides excellent protection, improves fuel economy and ensures smooth performance in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Enhanced fuel efficiency
- Low viscosity for better fuel economy
- Smooth and quiet operation
- Meets API SP standards

02 SAE 5W30

API SN

Premium synthetic oil formulated for modern petrol engines. Delivers excellent protection, enhances engine performance and ensures smooth operation in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Improved engine performance
- Better fuel economy
- Reduces deposits and sludge
- Meets API SN standards

03 SAE 0W20

API SP

Premium synthetic oil specially developed for modern fuel-efficient petrol engines. Provides excellent protection, improves fuel economy and ensures smooth performance in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Enhanced fuel efficiency
- Low viscosity for better fuel economy
- Smooth and quiet operation
- Meets API SP standards

04 SAE 5W20

API SP

Premium synthetic oil specially developed for modern fuel-efficient petrol engines. Provides excellent protection, improves fuel economy and ensures smooth performance in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Enhanced fuel efficiency
- Low viscosity for better fuel economy
- Smooth and quiet operation
- Meets API SP standards

ENGINE TYPE

PETROL

OTHER APPLICATION API GRADES

SJ, SM, SN, SN+ & SP

AUTOMOTIVE LUBRICANTS

05 SAE 10W40 API SN

Premium synthetic oil formulated for modern petrol engines. Delivers excellent protection, enhances engine performance and ensures smooth operation in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Improved engine performance
- Better fuel economy
- Reduces deposits and sludge
- Meets API SN standards

06 SAE 20W50 API SJ/CF-4

Premium synthetic oil specially developed for modern fuel-efficient Petrol and Diesel engines. Provides excellent protection, improves fuel economy and ensures smooth performance in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Enhanced fuel efficiency
- Low viscosity for better fuel economy
- Smooth and quiet operation
- Meets API SJ/CF-4 standards

07 SAE 15W40 API SJ/CF-4 CH-4/CI-4/CK-4

Premium synthetic oil specially developed for modern fuel-efficient Petrol and Diesel engines. Provides excellent protection, improves fuel economy and ensures smooth performance in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Enhanced fuel efficiency
- Low viscosity for better fuel economy
- Smooth and quiet operation
- Meets API SJ/CF-4 /CH-4/CI-4/CK-4 standards

08 SAE 20W60 API CK-4

Premium synthetic oil specially developed for modern fuel-efficient Diesel engines. Provides excellent protection, improves fuel economy and ensures smooth performance in all driving conditions

FEATURES & BENEFITS:

- Excellent engine protection
- Enhanced fuel efficiency
- Low viscosity for better fuel economy
- Smooth and quiet operation
- Meets API CK-4 standards

GEAR OIL

09 SAE 90W140 API GL-4

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy – duty applications
- Long service life under high loads

AVAILABLE PACK: 1L TO 208 LITER

10 SAE 75W140 API GL-5

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy – duty applications
- Long service life under high loads

AVAILABLE PACK: 1L TO 208 LITER

11 SAE 80W90 API GL-5

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy – duty applications
- Long service life under high loads

AVAILABLE PACK: 1L TO 208 LITER

12 SAE 85W140 API GL-5

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy – duty applications
- Long service life under high loads

GEAR OIL

13

SAE 75W90

API GL-5

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy - duty applications
- Long service life under high loads

AVAILABLE PACK: 1L TO 208 LITER

14

DUAL CLUTCH TRANSMISSION GEAR OIL

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy - duty applications
- Long service life under high loads

AVAILABLE PACK: 1L TO 208 LITER

15

SAE 140

API GL-4

Premium synthetic gear oil specially developed for modern manual transmissions and differential systems. Provides excellent wear protection, enhances gear shifting performance, reduces friction, and ensures smooth operation under all driving conditions

FEATURES & BENEFITS:

- Excellent gear wear protection
- Smooth gear shifting performance
- High thermal stability
- Protects against rust and corrosion
- Suitable for heavy - duty applications
- Long service life under high loads

AUTOMATIC TRANSMISSION FLUID

ATC GERMANY CVT-FE-TC & WS & DEX-VI 100% Synthetic is a fuel efficient transmission fluid designed for CVT-FE TC & WS & DEX-VI transmissions of the latest generation, formulated with fully synthetic base oils and a unique additive package. It features anti-foaming properties and excellent vibration-resistance. Product colour is neutral

APPLICATION

ATC GERMANY CVT-FE -TC & WS & DEX-VI % Synthetic is designed for use in continuously variable transmissions where the manufacturer recommends using energy-efficient low-viscosity fluids. The product properties are optimized to CVT-FE-TC & WS & DEX-VI design features of the latest generation

Warning! Not all the car manufacturers approve of using energy saving fluids in previous generation CVT FE-TC & WS & DEX-VI. When choosing the right fluid for your vehicle, please follow the manufacturer's recommendations

APPLICATION

- ATC GERMANY CVT-FE -TC & WS & DEX VI 100% Synthetic provides
- Compliance with the latest OEM requirements
- Exceptional anti-vibration resistance
- Correct CVT-FE -TC & WS & DEX-VI operation under different operating conditions
- Stable and smooth CVT-FE-TC & WS & DEX-VI operation at low temperatures

The latest technologies used by ATC OIL CORPORATION, Japan enable the variable transmission fluids manufactured by the company to meet the requirements of such car manufacturers as TOYOTA, LEXUS, NISSAN, MITSUBISHI, MAZDA, HONDA, SUZUKI, DAIHATSU, and others

HYDRAULIC OIL

ISO 32

Premium hydraulic oil for high-pressure systems. Provides anti-wear protection, oxidation stability, rust prevention, and smooth, efficient performance in industrial and mobile equipment

FEATURES & BENEFITS:

- Excellent wear protection
- Smooth hydraulic system operation
- Reduces oxidation and sludge formation
- Stable viscosity under high pressure
- Longer equipment life

AVAILABLE PACK: 1L TO 208 LITER

18

HYDRAULIC OIL

ISO 46

Premium hydraulic oil for high-pressure systems. Provides anti-wear protection, oxidation stability, rust prevention, and smooth, efficient performance in industrial and mobile equipment

FEATURES & BENEFITS:

- Excellent wear protection
- Smooth hydraulic system operation
- Reduces oxidation and sludge formation
- Stable viscosity under high pressure
- Longer equipment life

AVAILABLE PACK: 1L TO 208 LITER

19

HYDRAULIC OIL

ISO 68

Premium hydraulic oil for high-pressure systems. Provides anti-wear protection, oxidation stability, rust prevention, and smooth, efficient performance in industrial and mobile equipment

FEATURES & BENEFITS:

- Excellent wear protection
- Smooth hydraulic system operation
- Reduces oxidation and sludge formation
- Stable viscosity under high pressure
- Longer equipment life

AUTOMOTIVE LUBRICANTS

BREAK FLUID DOT 3 & DOT 4

A product of the manufacturer of "ATC* brake fluids, this is a high-quality, non-evaporating, non-freezing brake fluid designed for all seasons and suitable for all types of cars, trucks, and buses

This brake fluid not only meets SAE specifications 70 R 3 and J 1703, but also exceeds the requirements in many aspects. It conforms to the Germany safety standard FMVSS 571.116/ "DOT 3", "DOT 4" both physically and chemically

- Contains no water or acid
- Corrosion-proof protects metal and rubber parts
- Chemically stable
- Very high boiling point
- Very low freezing point
- Lubricates effectively even under high pressure
- High viscosity

ATE guarantees reliable and safe operation of *ATC* brake systems only when a suitable brake fluid is used

ATC* Blue Original Brake Fluid is specifically formulated and recommended* to ensure optimal performance and safety

20 DOT 3

250 GR

FEATURES & BENEFITS:

- High boiling point and excellent vapor lock resistance
- Protects against corrosion and rust
- Ensures reliable and safe braking performance
- Suitable for disc and drum brake systems
- Meets SAE J1703 & FMVSS 116 DOT 3 standards

AVAILABLE PACK:

250ML

500ML

21 DOT 4

250 GR

FEATURES & BENEFITS:

- High boiling point and excellent vapor lock resistance
- Protects against corrosion and rust
- Ensures reliable and safe braking performance
- Suitable for disc and drum brake systems
- Meets SAE J1704 & FMVSS 116 DOT 4 standards

AUTOMOTIVE LUBRICANTS

22 MOTOR FLUSH

ATC Germany Motor Flush is a high-performance engine cleaning solution specially formulated to remove sludge, varnish, carbon deposits, and harmful contaminants from the engine lubrication system. It helps restore engine efficiency, improves oil circulation, reduces wear, and prepares the engine for fresh oil. Suitable for gasoline and diesel engines, it ensures smoother operation, enhanced performance, and extended engine life when used before every oil change.

AVAILABLE PACK:

400ML

23 OIL TREATMENT

ATC Germany Oil Treatment is an advanced lubricant additive designed to enhance engine protection and performance. It forms a durable protective layer on vital engine components, reducing friction, wear, and operating temperatures. The formula helps improve oil stability, minimize engine noise, and maintain smoother operation under demanding driving conditions. Suitable for gasoline and diesel engines, it extends engine life and maximizes overall efficiency.

AVAILABLE PACK:

400ML
